

K-LOVE provides the only Christian based programming without sponsorship in Lexington. It gives the community an alternative to secular based programming which often is inappropriate for younger listeners. This type of programming has a positive impact on all listeners and can even provide options and/or direction to those suffering from many of life's problems. This family oriented programming would be missed if replaced by a LPFM. We need more K-LOVE type programs across the USA to get us back on track with the original intent of this country. Thank You Mark Bone
